The Sensory Perception and Motor Control Study needs YOU!
Up to 3 sessions of approximately 2 hours each

Who: 18-80 year old adults with or without upper limb amputations
Why: Help us better understand sensory and motor function to develop technology for prosthetic arms capable of sensory feedback.
When: Call or email to schedule
Where: Adaptive Neural Systems Lab, EC 3140, Engineering Campus, FIU 10555 W Flagler Street, Miami, FL 33174
Compensation: $20.00 for your time

To volunteer or for more information please contact Liliana Rincon-Gonzalez lrincong@fiu.edu or (305) 348-4782
